

REMARKS

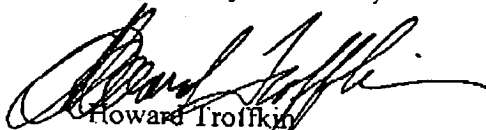

Attorney for Applicants thanks the Examiner for the courtesies extended to him during a telephonic interview, which took place on August 15, 2005 with respect to the subject application. The present Amendment reflects the discussions and conclusions reached during the course of the conference to place the present application in condition for allowance with respect to the claimed invention, as originally filed.

The present application was made subject to a restriction requirement by an Office Action dated May 14, 2004. During telephonic interview with the Examiner, it was agreed that the subject matter of Claims 1 to 5 directed to film products would be made subject to prosecution in the instant application. It was further agreed that, on the finding of allowance of said claims, original Claims 6 to 14 directed to laminate products would be reconsidered for allowance within the present application. In view of the Restriction, Claims 6 to 24 were withdrawn to further prosecution.

A Notice of Allowance has issued with respect to the invention of Claims 1-5 of the present application. Examiner and Attorney for Applicants have agreed that original Claims 6 to 14 directed to laminate products should also be allowed and made part of the present application. The Examiner has made the allowance of said claims conditional upon amending Claims 6 to 14 to conform to any prior amendments of the allowed claims. Attorney for Applicants presents new Claims 25 to 33 to correspond to original Claims 6 to 14 and to conform to the condition set forth by the Examiner.

Attorney for Applicants believes the Examiner will agree that the present Amendment should be entered and that Claims 1 to 5 and 25 to 33, as presently submitted, be made subject to the Notice of Allowance issued on July 21, 2005. Such action is respectfully solicited.

Respectfully submitted,

Howard Troffkin  
Attorney for Applicants
